EBCTS© v1.6 Release Notes

The tab records some basic info that John outlined and it allows the user to scan or manually link a scan to the record.

- 2) All scans can now be linked manually for users who do not have a TWAIN compliant scanner. For each module that has a scan, I added an additional button to “Browse” to the scan file they want to link.
- 3) Modified the “City” field in the people tab to show in lower case instead of uppercase.
- 4) Allowed for historical entry but allowing all positions (not just open positions) to be searched when adding terms. The system will check and block overlapping terms.
- 5) Added Appointed Type to user maintenance area:

The screenshot shows a web application interface with a table titled "Appointment Types". At the top, there are navigation controls including "Record: 1 of 4", "No Filter", and "Search" buttons. The table has a header row with "Department:" and a column of red 'X' icons. The rows contain the following text: "Appointed", "Appointed By Chair", "Appointed By Selectmen", "Elected", "Employee", and a row with an asterisk "*" in the first column and an empty text field.

Department:	
Appointed	X
Appointed By Chair	X
Appointed By Selectmen	X
Elected	X
Employee	X
* []	X

EBCTS® v1.6 Release Notes

These will feed the "Appointed or Elected" field in the frmTerms.

6) Created a report based on this field based on the example I the email sent this week:

The screenshot shows a software interface with several report options. The options are arranged in a grid-like fashion. The options visible are:

- Reappointment Letters Mail Merge Direct Letter
- Reappointment Report To Board of Selectmen
- Appointment Expiration Date: [text box]
- Meeting Year: [text box]
- Appointing Authority Report** (highlighted with a yellow circle)
- Appointmen Type [dropdown menu]
- Mailing Labels for Current Chairs
- Vacancy Report
- Press List
- Export Active Position List to HTML
- Newspaper Ad Export

The screenshot shows a report titled "Active People by Appointing Authority". The report content is as follows:

Active People by Appointing Authority

Appointed By Selectmen

Test Committee

Dresch, John -2012

7) Run report as of date now available:

Current Committee/Board
Positions By People As Of...

01/01/2012
